

Disabled Children's Access to Activities in the Cotswolds Area - 2023 Survey

Active Impact are a development charity working to increase inclusive opportunities for disabled children in Gloucestershire. As part of the Cotswold Youth Network we are reaching out to all families with disabled/SEN children who live in the Cotswolds geographical area. We'd like to know what activities disabled children and their families already access locally, which activities you would like to access and what barriers to participation might exist for you and your child(ren).

Thank you for taking the time to give us your experiences we will use these to help local providers plan and deliver more accessible activities in the Cotswolds area. If you have more than one child with different needs/ages please complete the survey for each child. You can answer anonymously but all respondents who include their email address will be entered into a prize draw to win one of five £10 shopping vouchers and will receive a summary of the result (the email address will not be used for any other purpose and will be stored securely in line with our Privacy Policy available at www.activeimpact.org.uk.) The survey closes on Friday 17th March 2023.
