

New accessible minibus for North Cotswolds

Community Connexions is a Gloucestershire-wide charity operating just across the Oxfordshire border into West Oxfordshire. We provide accessible transport to those who have no other means of travel, usually older people and those living with a disability. Our drivers are fully trained professionals and are DBS checked.

We have a new accessible minibus operating in the North Cotswolds – we can transport groups to lunch clubs, day centres or other social activities. We can also arrange 'shopper routes' to transport groups to the supermarket or town centre.

Enabling independence and inclusion

With this newly available service we are dedicated to providing transport to help enable independence, inclusion and participation. As a registered charity with over 30 years' experience we offer community transport at its best. Our door-to-door services are reliable, punctual, safe and fully accessible.

Costs vary according to distances, but many journeys are free if you have a concessionary bus pass. If you need assistance while travelling, you can bring a relative or friend for free.

Group Bookings and Vehicle Loans

Do you need group transport? We can provide our accessible minibus and driver to enable your group to get out and about. Whether you want to take a group to the seaside, out for lunch, shopping or even a tour of the Cotswolds, we can find a solution to your transport needs.

Eligible groups (charities, groups serving the elderly, youth, disabled, socially or rurally isolated) are able to hire our wheelchair accessible vehicles with a driver for group activities.
